Re: *United States of America v. Rasheedul Mowla*  
Case Number: 18-487 (AMD)  
Unopposed Request to Modify Scheduling Order

Dear Judge Donnelly:

For the reasons set forth below, we write to request that the due date for the defendant's reply to the government's response to our suppression be extended to July 6, 2021.

The combination of the still limited access to our client along with his general inability to focus on the issues continues to complicate matters. We believe it is prudent to continue our efforts to encourage him to do so.

On a related matter, we write to confirm that the defense *does not* intend to challenge the conclusions of the government mental health expert regarding the defendant's current competency to stand trial.

We have discussed this request with the attorneys for the government who advised that the government does not oppose the relief request herein.

Thank you for your consideration in this matter.

Respectfully submitted,

/s/  
Steve Zissou
